ACCOMMODATION IN OPATIJA

Opatija, a magnificent coastal town on the Adriatic Sea and a well-known 19th-century health resort, is today a popular holiday destination for tourists from all over the world. A mild and pleasant climate makes Opatija a perfect destination all year long.

The town is surrounded by stunning nature. It is located at the foot of Mount Učka, a popular destination for hikers and excursionists and a boundary between the green Istrian peninsula and the littoral region which features a perfect harmony of varied landscapes. The town of Opatija offers a beautiful view of the sea and the nearby islands of Krk and Cres, which can easily be visited by car or ferry. Opatija is surrounded by charming small towns characterised by narrow streets and a rich history.
HISTORY OF OPATIJA:

Opatija boasts numerous places of interest. The town’s streets are filled with houses distinguished by a specific architecture and with villas from the Habsburg period. This is a renowned wellness destination that continues to attract guests in search of a relaxed atmosphere. A wide range of beaches, clear sea and a variety of services and facilities are the key factors why tourists keep coming back to Opatija.

The first holiday house in Opatija, the Villa Angiolina, was built by Iginio Scarpa back in 1844. This year is now officially considered as the beginning of tourism in the town.

The Villa Angiolina played host to many famous historical figures, such as Emperor Franz Joseph I of Austria-Hungary, the Empress Maria Anna and the Croatian Ban Josip Jelačić.
Today, you can learn more about Opatija’s interesting history in the Croatian Museum of Tourism, which has three exhibition venues: the Swiss House, Villa Angiolina and Juraj Šporer Art Pavilion, where you can acquaint yourself with the town’s intriguing history.

The Church of St. James in the centre of Opatija is one of the town’s most significant buildings. The story of Opatija is closely related to this church and its monastery, since this is where the town got its name (Opatija is the Croatian word for abbey). Four centuries after the construction of the church, Opatija emerged as a holiday resort for the elite.

Opatija is located in the Bay of Kvarner beneath Mount Učka (1,401 m high) at the point where the Mediterranean reaches most deeply into the European continent. Mount Učka and the nearby islands provide good shelter from strong winds for this tourist resort that can easily be reached at any time throughout the year.

Hotel Villa Kapetanović located above the picturesque Volosko is right place for such a search. We’ve made a little hedonistic oasis. Pleasant surroundings and service that will pamper you with a spectacular view of our terrace on the Kvarner islands will remain unforgettable in your memory. Beauty is in the details. Opatija Riviera as it simultaneously confirms and refutes this claim. The stunning panorama of Učka and endless blue sea between which lies a series of coastal resorts, delight and a series of extraordinary details as well as a single entity. Just like the myriad of perfect crystals that form the gem - both small and great, but certainly unique. One of the most beautiful thing for sure is to discover certain details that make a perfect whole.
